

AstenJohnson & Yamauchi (USA) Corp.

Join together to bring the YNB Shoe Press Belt to North America.

Why should you choose a Yamauchi shoe press belt?

Yamauchi's strength is the development of polyurethane formulations and applications. They have been supplying next-generation shoe press belts to the market since their inception.

The shoe press is an essential papermaking component for faster, energy-efficient, and high quality paper production.

Innovation

First to develop polyurethane covers for pulp & paper applications.

Patented smooth groove design for improved water flow and minimized cracking.

Exclusive manufacturing process that minimizes CD variation.

Benefits

- Superior wear resistance.
- Improved cracking resistance and abrasion.
- Higher void volume retention.

AstenJohnson is representing Yamauchi in North and South America and will be the service experts for these products. Contact your AstenJohnson Sales Representative to learn more.
